# WHY PORTUGAL

---

The Portuguese Govt. offers you one of the fastest process of PR and Citizenship. All one needs to do is to work, pay taxes and enjoy life.

## **HEALTH SECURITY :**

During the Covid19 period, Portugal was ranked as one of the highest public service-providing governments. The OPD/IPD, testing, and immunization were all flawless. When the rest of the world was sobbing on our television screens, we didn't see any tears from Portugal. This is not just in times of crisis; it is an ongoing endeavor by the government to ensure the health and well-being of its population. The best thing is that it was all free of charge for everyone in Portugal.

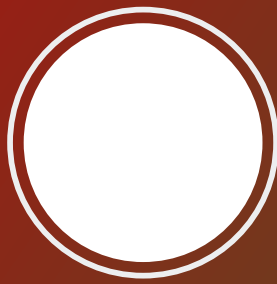

## **SOCIAL SECURITY :**

The rising rate of crime and violence throughout the world has become a big issue recently. Being ranked third in terms of social safety, it is not an exaggeration to suggest that daily life in Portugal is completely devoid of crime. No one even talks about racial, sexual, gender, or ethnic violence.

To maintain this level of security, all you have to do is follow the law; if you fails, the government may penalize .
